

## Picot Cast-on

The picot cast-on is a versatile, decorative cast-on that looks perfect around the edges of Hats, cuffs, baby clothes and much more.

Based on the cable cast-on the number of stitches cast-on can be varied, depending on how much space between each picot you prefer and how small or large you like your picots. You could use a knitted cast-on instead of a cable cast-on for a lacier effect.

1. Using cable cast-on method, cast on 5sts.

2. Using regular cast-off (i.e. knit 2 sts then passover 1<sup>st</sup> st & continue) cast-off 2 sts.

3. Pass the stitch on the right hand needle back to the left hand needle – 3 sts cast on.

4. Repeat steps 1 to 3 until desired no. of sts have been cast on. It's a good idea to end with a cast-on of 2 after the last picot to balance the stitches.
